

Global Product Data Interoperability Summit

SOA PLM CAD/CAM/CAE

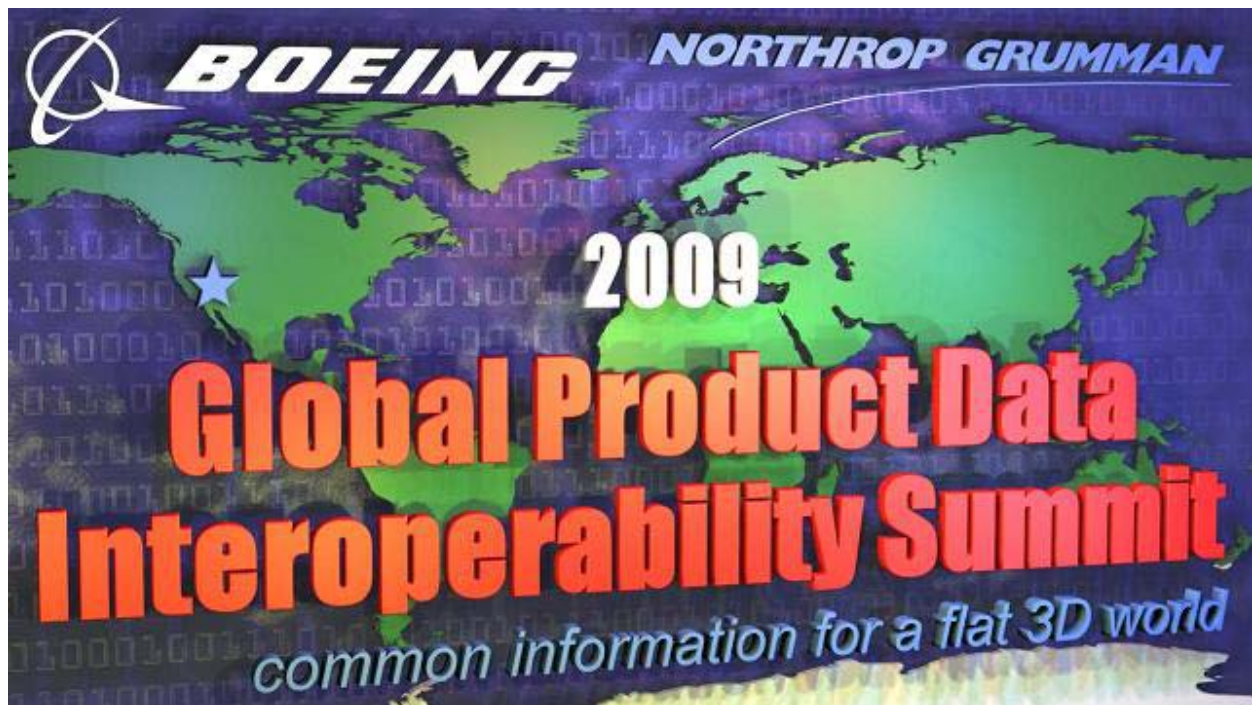

“Common Information for a flat world”

November 9th, 10th, 11th, & 12th 2009

The Boeing Product Data Exchange Conference has matured into an informative and comprehensive event for aerospace and defense users, vendors, suppliers, and OEM's. The Global Product Data Interoperability Summit combines three conferences into a single event that covers topics on services oriented architecture (SOA), product lifecycle management (PLM) systems and the data standards which are intrinsic to these architectures and allow for interoperability. The three combined conferences are the Boeing Product Data Exchange Conference, the Boeing PP&RDI SOA Deep Dive, and Northrop Grumman PLM Summit.

Attendees benefit from a broad selection of presentation topics across the SOA PLM CAD/CAM/CAE domains, in both internal and open forums. Architectures, specifications, standards, and best practices are categories within the scope of this event. Collaborative knowledge sharing is another great value to participants with opportunities to exchange and communicate their ideas and experiences with other attendees.

Last year's venue was a great success and in November we will be returning to the Arizona Golf Resort, Hotel and Conference Center, in Mesa, Arizona.

A vendor exhibition area has been allocated and all vendors interested in participating should contact;

Ken.Tashiro@elysiuminc.com 248-766-1045.

Participants who are not with Boeing or Northrop Grumman and wish to participate, please contact;

Terrence.J.McGowan@boeing.com 314-479-3980. Upon approval, an information package will be forwarded to attendees email accounts.

Extended - Call for Papers

The GPDIS Committee has extended the deadline for accepting abstracts from all contributors who wish to present their latest information on SOA, PLM, and Data Exchange. Abstracts are being considered for presentation now. Experts are encouraged to share their knowledge and experiences openly. Vendors who wish to present should not submit sales or marketing papers, technical white papers are preferred. The thrust of each 45-minute presentation should be weighted in accordance with one of the specific areas outlined above. Below are a few examples of the approved presentation thus far.

1. "Ontology based technology for development of software tools for STEP data processing"
by Peter Shilnikov, Ph.D., associated professor of CIM department (RK-9),
Bauman Moscow State Technical University, Russia.
2. "3D_Evolution Viewer - Comparing 3D Models" by James Ackron of coretechnologies.
3. "FEDERATE! DON'T REPLICATE! PDM Federation Across Heterogeneous Data Sources" by Andreas Schreiber and Paul Downing of ProSTEP.

The deadline for abstract submission has been extended to August 31, 2009. All submissions will be considered and notifications of acceptance will be sent via e-mail by September 14, 2009. Please submit your abstract to an appropriate coordinator below depending on your employer:

- Northrop Grumman: John.Macrino@ngc.com
- Boeing, vendors, universities, etc: charles.chen@boeing.com

Please include the following information in your abstract:

- Presenter's full name, position title, email address and phone number
- Presentation title and a description of no more than 200 words
- Indicate it is for the PLM, SOA or Data Exchange Track
- Indicate it is or the standards, tools or processes focus area
- Will the presentation contain sensitive information that cannot be given to the general audience (Boeing and Northrop abstracts only)

This is an opportunity to share success stories from across our industry through your participation. Help make the GPDIS a great success by submitting your abstract today.

Registration

Web Based GPDIS registration: <http://support.elysiuminc.com/confreg/>

For accommodations, register @ the Arizona Golf Resort Hotel & Conf Center. Contact reservations at 480.832.3202 or toll free 800.528.8282 (use conference group code **BPROD**)

Note: 130 rooms have been blocked until Oct. 8th for early reservation first come discounted rates, after this period normal seasonal room rates will be applied.

High Level Summit Agenda

Nov 9 1 pm	Boeing/Northrop Grumman	Closed Sessions
Nov 10 8 am	Boeing/Northrop Grumman	Closed Sessions
Nov 10 1 pm	Opening Ceremonies/Key Note Vendor Expo- Evening Event	All Attendees
Nov 11 8 am 6 pm	Open Discussions Vendor Expo Poolside Event	All Attendees
Nov 12 8 am 12 pm	Open Discussions Vendor Panel Closing	All Attendees
